The Botanical Garden Bulletin is a scientific publication belonging to the Research Center for Plant Conservation and Botanical Gardens LIPI. Contains scientific writings on research results, or reviews and original ideas about plant conservation, plant biology, and development of plantations in Indonesia and other tropical areas. In managing the Botanical Gardens Bulletin, scanning the newsletter and submitting newsletter articles, this activity changes the printed form to the softfile form. Changing the appearance of the Website Open the Publication Journal System.kr.lipi.go.id. Make a call for paper poster to send written results to the website publication.kr.lipi.go.id. This was done to encourage readers to find information at the Bogor Botanical Gardens LIPI and facilitate the data collection of bulletin articles at the Bogor Botanical Gardens LIPI.

Keywords: Research Center for Plant Conservation and Botanical Gardens, LIPI-Bogor, Botanical Gardens Bulletin.
