

Abstract

PT Dicoding Akademi Indonesia – Batch 3 Android Application Developer Program is a Certified Independent Study Program (SIB) which is included in one form of Merdeka Learn Kampus Merdeka (MBKM) issued by the Minister of Education and Culture of the Republic of Indonesia through Permendikbud Number 3 of 2020 concerning Standards National Education. The SIB X Dicoding program will be held from 18 August to 31 December 2022. The learning process being carried out is online learning, where participants must implement the material they get directly through projects and tasks that must be completed to complete each material. This program aims to produce high-standard talent that meets industry standards in the field of Android Application Developers. In addition to hard skills in the field of android application development, soft skills are also the target competency for independent study participants in careers as developers, but not limited to self-branding, problem solving, design thinking, and collaboration.

Keywords: Coding, Android, Developer, Hard Skill, Soft Skill, Career, self-branding, problem solving, design thinking.
