

ABSTRACT

Merdeka Campus Program is a program launched by the Ministry of Education for students in semesters 6-8 so that students can get more knowledge outside the study program undertaken so that it becomes a new experience and can be used after completing their studies. The KKN program is a manifestation of one of the implementations of the tri dharma of universities, namely community service, and KKNT is an extension of the KKN program which is used as an independent campus program where students / I descend into the midst of the community and identify the potential of the village. This KKNT program runs for 6 months. KKNT is thematic so that students have to adapt to what is needed and what problems exist in a village. Students who are in the midst of the community will be easier to identify existing communities and can jump directly to provide solutions on the ground. In karanggintung village on the issue of young marriage and stunting is being encouraged about prevention. Group 1 realized this to create a program to educate the community, especially teenagers and mothers about relationship between these two things.
