

ABSTRACT

The website as one of the digital media that acts as a forum for a personal profile, company or product and service provider to become one of the media that uses the internet network which is currently increasingly being used by the public to spend time or find information that is being sought, then from that the role of a website can be said to be one of the promotional media in digital form if what it offers is products and services that want to widen the target audience broadly.

The Sendang Mas Banyumas Museum is one of the museums regulated by the Banyumas Regency Youth, Sports, Culture, and Tourism Office where the Banyumas Sendang Mas Museum focuses on the collection of Banyumasan puppets, traditional musical instruments, cultural ritual instruments, and various Banyumas ancestral relics, because it wants to make it easier for Banyumas people. potential visitors in digging for information or seeing more details about the items on display. So from this, a website design design was created as one of the information media for the Banyumas Sendang Mas Museum.
