*Technological progress is something that cannot be avoided in this life. The use of information technology is a necessity for every company, and there is a need for an approach in developing an integrated system throughout the Purbalingga Regency Community. Therefore, the Purbalingga Regency Baznas Website allows for overall data interaction that can produce more relevant information for making future decisions, this website created using WordPress, Xampp and the PHPMyAdmin database. It is hoped that this website-based information system is in accordance with the needs of the community and is easy to use.*

*Keywords : PhpMyAdmin, Xampp, Website. Wordpress.*
