Technological progress is something that cannot be avoided in this life. The use of information technology is a necessity for every company, and an approach is needed in developing an integrated system throughout the Purbalingga district community. Therefore, the Purbalingga district Health Laboratory UPTD website can produce more relevant health-related information for the people of Purbalingga district. This website is built using WordPress, Xampp and PhpMyAdmin database. It is hoped that this website-based information system is in accordance with the needs of the community and is easy to use.
