

ABSTRACT

The Bangkit Academy 2022 Certified Internship and Independent Study Program by Google, GoTo, Traveloka with the Machine Learning path is being implemented from 21 February 2022 - 29 July 2022 which is carried out online with asynchronous learning techniques (online through learning modules at Dicoding Academy and Coursera). On the Machine Learning path, there are several courses studied such as Dicoding's Python, IT Automation with Python, Mathematics for Machine Learning, TF Developer Professional, Structuring Machine Learning Project, TF Data and Deployment, TensorFlow Certification Preparation. Not only Hard Skill classes, at Bangkit Academy 2022 there are also Soft Skill and English classes. At the end of the program there is a capstone project which is divided into 2 parts, namely product capstone and company capstone, where each team consists of 3 different learning paths.

Keywords: Certified Independent Studies, Bangkit, Machine Learning
