

Bab V Lampiran B. Log Activity

Tabel 5. 1 Log activity kegiatan selama mengikuti Studi Independen

Minggu/Tgl	Kegiatan
Minggu ke 1 14-18 Feb 2022	so in this first week I have been self-study "Starting Programming With Kotlin" in this week I also did exams and submissions and got a certificate which was then uploaded in class as a sign that I had successfully completed the material
Minggu ke 2 21-25 Feb 2022	this week I have learned fundamentals and layouts and also did a quiz at the end of each module, I have also worked on submission 1. then I will move on to the next material in the module
Minggu ke 3 28 Feb – 4 Mar 2022	this week I received a 2-day MSIB student briefing on March 1 - 2nd. and also this week I studied and did exercises on the navigation module and there is also ILT SS Time Management
Minggu ke 4 07-11 Mar 2022	in week 4 I am working on exercises on the Background Process and Networking module. And this week I am also taking Android Fundamental and navigation ILT classes, as well as participating in weekly consultation and guest speakers.
Minggu ke 5 14-18 Mar 2022	This week I am working on ILT SS time management assignments and also continuing to do exercises on the Background Process and Networking module and taking ILT Professional Branding and Interview classes as well as participating in weekly consultation and guest speakers
Minggu ke 6 21-25 Mar 2022	this week I finished the android architecture module and will start working on the 2nd submission and this week there is an Android Fundamental ILT session and there is always weekly consultaion and guest speakers every week
Minggu ke 7 28 Mar–1 Apr 2022	This week I missed the deadline for Android fundamentals. I'm just working on my second submission and I'm still having problems working on it. This week I also attended the Critical Thinking ILT session and of course there were weekly consultations and guest speakers
Minggu ke 8 4-8 Apr 2022	this week I am still working on the second submission from fundamentals and also participating in team meetings, as well as taking intermediate android classes and english session classes.
Minggu ke 9 11-15 Apr 2022	the previous week I received a token to learn android intermediate and this week I just activated the token after receiving a reminder from the Bangkit team, this week I also attended weekly consultation with the facilitator and also attended the Adaptability soft skills class on Wednesday, I also completed the submission second on android fundamentals and later this week I will be working on the final submission on android fundamentals

	class.
Minggu ke 10 18-22 Apr 2022	this week I missed the UX design deadline which should be submitted on April 1, and this week I started to divide my time to work on 3 projects that are still unfinished. This week I also took the Android Intermediate ILT class and also took part in weekly consultation on Tuesday, and on Friday I attended the guest speaker with Muriel Makarim and Dian Rosanti as the speaker because on this Friday, Kartini Day, the five best questions will be given 100 Bangkit points.
Minggu ke 11 25-29 Apr 2022	this week I tried to do an intermediate android submission but there are still lots of errors and the reviewers have rejected many times, this week I took part in soft skills idea generation and MVP on Wednesday and as usual every week there is weekly consultation
Minggu ke 12 2-6 Mei 2022	this week there are no activities because we are celebrating Eid al-Fitr, and this week I am looking for a team to work on the capstone project
Minggu ke 13 9-13 Mei 2022	this week I have got a team for the capstone project, and we started discussing what application to make and also complete the report that has been given. this week we agreed to make a travel application but unfortunately this team is not very cohesive and only a few people contribute. this week there is a team meeting and there is also a meeting with the facilitator discussing introducing API
Minggu ke 14 16-20 Mei 2022	this week the capstone team and I divided the tasks that each of us would do, we also started to design our application and collect the data needed, this week I worked on the last submission for the Android Fundamental class and it has been rejected several times and finally the submission has been approved.
Minggu ke 15 23-27 Mei 2022	This week I should have started working on capstone but I also haven't finished the mobile UI/UX yet, this week I'm only focusing on the task and occasionally working on capstone. for the capstone project, I found it a little difficult because I didn't have an MD partner, so I did what I could and as best I could. Finally on Friday my Mobile UI/UX Task was approved and I was able to focus on capstone.
Minggu ke 16 30 Mei-3 Jun 2022	there is still 1 week left for capstone collection, my group has three people out of 6 people, people who proposed the idea of making this application cannot be contacted at all, and 2 other friends also found it difficult when making this project until they resigned, so it was just me and The other 2 people are from ML and CC so our group has one MD, one CC and one ML. I hope we can complete our application on time, I am very difficult when

	it comes to building this application myself, because I still have doubts and also I have not fully worked on the intermediate module so I don't think I can make the application that my friends expect.
Minggu ke 17 6-10 Jun 2022	this week there is a checkpoint for the capstone project, and there is also a team meeting from rising and also this week there is weekly consultation. This week, our project is still 50% incomplete, there are still many shortcomings in our application, it feels tired every night staying up all night working alone, and thank you for giving us 3 more days to complete this task.
Minggu ke 18 13-17 Jun 2022	this week we collect and present the applications that we have made, our group application is still really simple, there is a sense of feeling a little inferior to see other groups whose members are complete and also their applications are very good, but I am proud of myself still want to fight for our group does not disappear and escapes responsibility for the group even though what I am doing is not perfect or still far from perfect but I have tried as much and as best I can.
Minggu ke 19 20-24 Jun 2022	This 19th week I took the English post class assessment and also this week I did my first android intermediate submission which was rejected and queued for a long time, finally it was approved. and also this week I'm still taking startup valuation and investment pitch soft skills classes. This week I was a little disappointed because I still couldn't complete the intermediate android class according to the time limit given because I was rejected many times, I also didn't focus on doing AAD preparation even though the deadline was coming soon.
Minggu ke 20 27 Jun-1 Jul 2022	this week I am still trying to do the final intermediate submission again, there are not many queues in this class so I hope the reviewer approves it and this week I am also working on AAD preparation I have made a video interview and also worked on the project but unfortunately the project still not approved because there are some errors in the program. but after the program has no errors and has been approved, the turn for the video is not approved, I am confused because at the beginning my video has been approved. so for this week the focus is on making a video revision of the previous project.
Minggu ke 21 4-8 Jul 2022	In this 21st week, I am very happy that my final Intermediate submission has been approved by the reviewer, and this week I am focusing on working on Preparation AAD. I have sent it, it has been fulfilled, hopefully there is still time to do this AAD preparation.
Minggu ke 22	This 22nd week I have completed AAD preparation and also this

11-15 Jul 2022	week I was given the opportunity to complete my soft skills assignment. I am very grateful to Bangkit for providing this opportunity for me. this week i have completed most of my assignments and i will start to make the final report
Minggu ke 23 18-22 Jul 2022	this week there are not many activities carried out, this week there are still weekly as usual. this week there is a Technical Briefing for GwG Career Fair 2023 on YouTube and also on Friday following the Coaching Clinic Session for Career Fair Preparation
Minggu ke 24 25-29 Jul 2022	this week there are not many activities because this is the last week of the Bangkit program, this last week only focuses on making the final report
