

ABSTRACT

Certified Independent Studies is one of the programs of the campus Internship and Independent Studies (MSIB) is one of the programs organized by the Ministry of Education and Culture for students through the Merdeka Learning Campus Merdeka (MBKM). The Indonesia Cyber Education (ICE) Institute is one of the partners working with the MBKM program. The ICE Institute organizes a Certified Independent Study program through the Game Developer Microcredential Program. The program itself consists of several streams, including Game Designer, Game Programmer, Game Project Management, Game Artist and Educational Game Development. Specifically for Game Artist streams, this program is aimed at developing the talents of game developers in creating audio-visual object resources and implementing interface designs in game development.
