Abstract

Elizabeth Christina 19102094. Report Merdeka Belajar Kampus Merdeka (MBKM) at Yayasan Anak Bangsa Bisa. React JS implementation project on Ahorameves App Spotify Playlist. 2022. Yayasan Anak Bangsa Bisa carries thetheme Generasi GIGIH 2.0 by YABB & GoTo at the Independent Study and Internship Program Activities in collaboration as corporate partners with Merdeka Belajar Kampus Merdeka (MBKM).

This report was made aiming to report the results and process during the Generasi GIGIH 2.0 by YABB & GoTo and Intership at CoLearn in program period, Examples are the React JS implementation project on Ahorameves App Spotify Playlist and Build notification service dashboard. both projects are projects that were carried out during the program period, the authors are required to work on the project individually and in pairs according to the provisions of the Generasi GIGIH and CoLearn.

The research method in this report uses primary data sources, namely through the material provided by Generasi GIGIH 2.0 by YABB & GoTo and secondary data sources from data obtained through data that has been provided by Generasi GIGIH 2.0 by YABB & GoTo and CoLearn as well as self learning . This project was carried out to hone the author's skills and understanding regarding theoretical understanding and understanding in implementing the React JS programming language, especially in the frontend field which has been studied during the program period.

Project work is carried out during the program period until it is completed which is expected to provide understanding and experience as well as the ability to implement the theory that has been learned.

Keyword: React JS, FrontEnd, Coding, MBKM, Generasi GIGIH, Yayasan Anak Bangsa Bisa, CoLearn.
