

## **ABSTRACT**

The Export School is a partner of the Merdeka Campus program which organizes export learning outside the campus with the theme "Digital Export 2022". build a news portal website to increase Digital Export 2022. The news portal website that we designed we named "EXGO". This exgo news portal was designed and created with the aim of providing information and news about export-import activities in Indonesia as well as the development of export school activities as well as product information from export schools. With the EXGO news portal, it is hoped that the Indonesian people will be able to buy and support local products which are actually of the same quality as imported products.
