

## **ABSTRACT**

There are many activities that are usually carried out as a work program in a village. This includes activities organized by the PKK. PKK is a movement to assist and support government programs by collecting data on several aspects that are needed, such as data on residents, pregnant women, babies and toddlers, births, deaths, and community activities. Pliken Village is one of the villages located in Banyumas Regency. Regionally, Pliken Village consists of 3 grumbul 5 Kadus, 9 Rukun Warga (RW) and 50 Rukun Tetangga (RT). Looking at the number of RTs in Pliken village, good management is needed for each activity data held by PKK. There are several ways that can be used to manage activities, especially coupled with technological developments that have greatly helped human work. Excel and Google Form are some of the ways that can be used.
