

ABSTRACT

In the aspect of technology adaptation in SD Negeri 1 Cidora, the author sees that the interest in learning technology in SD is lacking. The need for knowledge of technology to students of SD Negeri 1 Cidora. Given the atmosphere of the Covid-19 pandemic in Indonesia, which has not returned to normal, it requires students to understand technology. The author chose to hold a technology class which was attended by all 6th graders. This activity aims to increase interest in learning technology from an early age, and provide provisions for 6th grade students who will enter Junior High School (SMP). So that when students enter junior high school, students already understand in advance how to operate various applications. From the activities that the author has done, the results are that students in grade 6 SD Negeri 1 Cidora have more awareness of learning about technology, and interest in learning technology slightly increased.
