

Abstraction

Culture, Research, and Technology (Mendikbudristek) conducts programs designed to ensure students get the best, latest, and foremost competencies to face the world of tomorrow. The program is named Internship and Certified Independent Studies (MSIB). The partners who are members of the program are world-class companies and are guaranteed by the organization, so students are mentored by experienced experts, one of these partners is Binar Academy.

Binar Academy was founded by alumni from Gojek, namely Alamanda Shantika, Dita Aisyah, and Seto Lareno. As a pioneer of edutech, Binar Academy encourages not only to learn insights and theories but also to imitate the process to become the basis for making innovations that can build a nation. Binar Academy has opened several courses for the MSIB program, one of which is UI/UX Designer.

Learning at Binar Academy is divided into 3 levels, namely Silver Level, Gold Level, and Platinum Level. At the Platinum Level, the UI/UX course collaborates with Product Management to create products according to the applicable theme. The work on this final project is carried out starting from sprint 1 to sprint 3, each sprint has 2 weeks and at the end of the sprint a sprint review and sprint retrospective are carried out.
