

**ABSTRACT**

*In facing the rapidly growing industrial world, students are required to master basic skills, not only graduate with academic ability. Therefore, the implementation of field work/practical work is very much needed to improve students' knowledge and skills in dealing with the growing world of work and industry. .PT. Indonesia Comnets Plus (ICON+) is a national company engaged in the provision of telecommunications networks and services. PT Indonesia Comnets Plus (ICON+). At the time of doing the Field Work/Practice Work the author was placed in the Activation division which is responsible for installing and configuring the device in the user section. The author's specific position in the Quality Control (QC) section. Therefore the author takes the title "Quality Control of Complementary Poles and Withdrawal of Fiber Optic Aerial Cables in Vendor Activation Construction for Public Users" as a report on Field Work Practices / Practical Work.*

*Keywords: ICON+ , Telecommunication , Quality Control.*
