

ABSTRACT

Along with the development of the times and technology, it is now easier for people to access digital information service media to facilitate the activities they are carrying out. The website is a form of communication through mass media with an internet network that can provide certain information and can be accessed by many people. the use of the website in sub-districts and sub-districts in Purbalingga Regency is very useful for the smooth running of any news and information in all sub-districts and sub-districts in Purbalingga Regency under the auspices of the Office of Communication and Information of Purbalingga Regency.
