

ABSTRACT

Practical work is a means of activity to acquire skills, both soft skills or hard skills that have been obtained during lectures. By following this practical work, students gain knowledge about what is happening in the world of work. In this KP report there are several work implementations, findings of obstacles or problems as well as solutions to obstacles or problems that exist in the Central Statistics Agency. Placement of KP at the Central Statistics Agency, the author is placed in the work unit of the Deputy for Social Statistics, in this work unit carrying out the formulation and implementation of policies in the field of social statistics. With the existence of regsosek activities, it is the government's effort to build a single population data, or one data. By using a single data, the government can implement its various programs in an integrated, non-overlapping, and more efficient manner. Based on the implementation of Field Work Practices at the Central Statistics Agency, it can be concluded that the authors get an overview of the application of knowledge and theory gained during lectures and feel how to enter the world of work, gain new experiences and gain knowledge about statistics.

Keywords: *Practical Work (KP), Regsosek, Statistics.*
