Dear Mr. Alfin Hikmaturokhman:

Thank you for registering your paper 1570351391 ('4G LTE Evolved Packet Core Planning with Call Switch Fallback Technology') to 2017 International Conference on Communication and Computer Engineering. You still have to upload your manuscript at <https://edas.info/uploadPaper.php?m=1570351391>.

IMPORTANT

1. Kindly PUT ALL YOUR PAPER AUTHORS NAME (COMPULSORY) in Author Section (In your paper ID - Set Authors section)
2. Kindly Set your EDAS Profile Name to your actual name (According to Passport/Identity Card) plus your designation (Prof/Assoc.Prof/Dr/Ir/...)
3. Author understand perfectly that that once payment has been made (Payment Complete) for accepted papers, automatically the author(s) of corresponding paper will accepted and agreed to the Registration Terms and Conditions on <https://maltesas.org/terms/>.

#####

You can see all your submissions and their status at

<https://edas.info/index.php?c=23191>using your EDAS user id alfin@st3telkom.ac.id.

Once you upload your manuscript, you will receive another email confirmation.

LETTER OF ACCEPTANCE

4th International Conference on Communication and Computer Engineering (ICOCOE 2017)

Penang, Malaysia

18 – 20 April, 2017

Author(s) : Alfin Hikmaturokhman

Paper Title : #1570351391 - 4G LTE Evolved Packet Core Planning with Call Switch
Fallback Technology

Dear Author,

We are pleased to inform you that your paper entitled above has been accepted to be presented in the 4th International Conference on Communication and Computer Engineering (ICOCOE 2017) which organized by Malaysia Technical Scientist Association (MALTESAS). The ICOCOE 2017 will be held in Penang, Malaysia from 18th – 20th April, 2017.

The accepted paper has been strictly undergone peer-reviewed process and will be published in Journal of Telecommunication, Electronic and Computer Engineering (JTEC) (ISSN 2180-1843, e-ISSN 2289-8131) or other SCOPUS-indexed journal. Please be informed that the publication process will take around 9 to 15 months from the conference's date.

Please visit our website <https://icocoe.com/> for information about the conference, registration guidelines and Terms & Conditions. By registering to this conference, all authors will be deemed to agree, understood, and accept all MALTESAS Official Conference Terms and Conditions in <https://maltesas.org/terms/> once payment has been made.

Congratulation on the acceptance of your paper and thank you for your interest in the 4th International Conference on Communication and Computer Engineering (ICOCOE 2017). We look forward to see you at the conference soon.

Yours sincerely,

Dr Mohd Azlishah Othman

President

Malaysia Technical Scientist Association (MALTESAS)

Review 1 =====

> *** Strengths/Weakness: What are the major reasons to accept/reject the paper? [Be brief.]

This paper is not a research paper based on real scientific effort. The existing model describes quickly and without specific details a primitive proposal for the implementation of 4G LTE evolved packet core planning with Call Switch Fallback Technology in a certain place.

> *** Contribution/s & Detailed comments: What are the major issues addressed in the paper? Do you consider them important? Comment on the degree of novelty, creativity and technical depth in the paper. Please provide detailed comments that will be helpful to the TPC for assessing the paper, as well as feedback to the authors.

- Language, graphs, text and equations should be revised.
- "Dimensioning is the network planning stage aimed to calculate the network needs to obtain an effective network, which in terms of cost, technical, and performance." There is no result related to cost evaluation or technical description.
- The procedure has no clear objectives, assignment nor capacity constraints that were applied at the link, interface and node levels.
- The goal of the model is undefined is it cost minimization, network topology that can handle the traffic or just calculation for core elements (i.e., MME, S-GW, HSS...) and interfaces.

> *** Strengths/Weakness: What are the major reasons to accept/reject the paper? [Be brief.]

Minor correction for this paper and be accepted in this conference and congratulation to the author(s). However there are some changes need to do especially with the references need to review because some of the paper references are out dated. The reviewer also suggest to extend the set of data to support the accurate hypotheses or conclusion.

> *** Strengths/Weakness: What are the major reasons to accept/reject the paper? [Be brief.]

The arguments are logical, structured and valid.
The data does support the conclusions
The authors explained their motivations and methods for their study

A very interesting paper.
It is easy to ready and understand what was written

Some of the references are not up to date.
Some grammatical error has been detected.
