Reviewer A:

Recommendation: Revisions Required

A. Relevance: this paper has conformity between its content and offered topics.

Good

B. Contribution: this paper contains originality, novelty and innovation.

Fair

C. Grammar: this paper is grammatically correct, uses appropriate dictions, has clear explanation and easily to understand.

Bad

D. Abstract: concise, clear, comprehensive, and readable.

Fair

E. Suggestion(s):

Overall, the content and results are clear, the author managed to describe the process well. The only problem is the language diction that need to improve. I suggest to proofread the paper thoroughly or using translator or tools to translate the paper.

Reviewer C:

Recommendation: Revisions Required

A. Relevance: this paper has conformity between its content and offered topics.

Good

B. Contribution: this paper contains originality, novelty and innovation.

Fair

C. Grammar: this paper is grammatically correct, uses appropriate dictions, has clear explanation and easily to understand.

Fair

D. Abstract: concise, clear, comprehensive, and readable.

Good

E. Suggestion(s):

- Abstract: What are the contributions and implications? add.

- Introduction: Statements of problems and gaps in the Introduction are still biased, The research supporting sources are very lacking (state of the art), why use COBIT?, what is the most different in this study from previous research? (novelty)

- Discussion: each finding from the Results section needs to be discussed and compared with other studies.

- Conclusion: the conclusion is the answer to the problems in the Introduction, is it appropriate? also add the contributions and research implications.

- References: adjust to research needs from the Introduction section to the Discussion section.
