*The development of Internet technology in Indonesia made various agencies want to apply the benefits to their companies. Already widely used Internet use in various agencies is the creation of a website as a media outlet for presenting company's profile information. The profile media of an agency is usually packaged in the form of a company profile to be displayed on the website. According to bank Indonesia the central bank/bi's decision to raise its benchmark interest rate by 25 basis points to 8.25 percent, the central bank said. Since the company profile is important is implemented by an agency, the setting of the company profile website mapala unisi for the purpose of introducing and making it easier to pass on information from the agency. The production of a company profile website on the mapala unisi society has some features, home for the front page, about, news, gallery, and contact institute. With the company profile mapala unisi, it is expected that people can easily learn the history, function, and information of the organization.*
