

ABSTRACT

ABSTRACT

The Rise 2021 Program is a program to foster 3,000 digital talents from the Ministry of Education, Culture, Research and Technology of the Republic of Indonesia in collaboration with several large companies, namely Google, Tokopedia, Gojek and Traveloka. The Rise Program exists with the aim of developing students for a minimum of 5 semesters to become skilled digital talents in the future. There are three learning paths, namely cloud computing, machine learning, and mobile development. In Rise 2021, the author follows the mobile development learning path with subjects Learning to Make Android Applications for Beginners, Learning Android Application Fundamentals, Learning Android Jetpack Pro, Becoming an Android Developer Expert. At the end of each learning module there is a project for graduation requirements. And at the end of the lesson there is a capstone project which is a joint project of the three learning paths.

Key Word: Talent, Digital, Bangkit, Mobile, Development.
